PROFILE

I am enthusiastic to build a successful career as a software engineer , and I am eager to contribute my skills and enthusiasm to an innovative and forward-thinking organization.

EDUCATION

Bachelor of Engineering In Computer Science and Engineering CGPA-7.45 2022 – 2025
Bangalore Institute of Technology Bangalore, India

Diploma in Computer Science and Engineering Grade-91% 2019 – 2022
M.E.I Polytechnic Bangalore, India

Karnataka Secondary Education Examination Board - 2019 Grade-83.20% 2019
Royal English School Bangalore, India

LANGUAGES

Kannada	English
Hindi	Telugu

PROGRAMMING SKILLS

C Programming	Java
HTML	Python
Adobe Photoshop	

PROJECTS

Agricultural Monitoring and Crop Yield Prediction Using Remote Sensing present
This project introduces a crop yield prediction system designed to forecast agricultural productivity using advanced data analysis and machine learning techniques. The system leverages historical weather data, satellite imagery, and other relevant features to provide accurate yield predictions for various crops.

Restaurant Management System

Restaurant Management System (RMS) using HTML, CSS, and JavaScript is a great way to learn about web development

Escape Room Game Website

It is a Fun gamming Project Using HTML, Javascript, CSS

Zoo Management System

Zoo Management System using HTML, CSS, and JavaScript with sql, xampp can be a great project to manage information about animals, staff, and visitors

Emotion Based Music Player

Emotion-based music player using Python is an interesting project that involves using machine learning to detect emotions and play appropriate music according to the emotion face.

pneumonia Detection

Detecting pneumonia using Python typically involves leveraging machine learning and image processing techniques, particularly when analyzing medical images like X-rays
